DETAILED ACTION

1. Claims 1-8 are pending in the instant application. Claims 2-4, 6 and 7 remain withdrawn.

Information Disclosure Statement

2. The information disclosure statements (dated February 20, 2009 and February 12, 2009) were in compliance with the provisions of 37 CFR 1.97 and 37 CFR 1.98. The statements were considered. Signed copies of form 1449 are enclosed herewith.

Response to Amendment

3. The amendments to the claims filed on February 20, 2009 have been fully considered. The outstanding grounds of rejection have been obviated and are thus hereby withdrawn: 35 USC 112 1st paragraph and 35 USC 112 2nd paragraph.

4. Pursuant MPEP 803.02, the search and examination was extended. Prior art was found

that makes obvious the non-elected species of . Therefore, the Markush claims were rejected and non-elected species maintained withdrawn from further consideration. Currently, prosecution is limited to the elected species and therefore claims 1, 5 and 8 remain objected to for containing non-elected subject matter. Applicant is not required to cancel the non-elected subject matter, as Applicant will be entitled to rejoinder of non-elected species upon allowability of the generic claims.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.

Art Unit: 1626

2. Ascertaining the differences between the prior art and the claims at issue.
 3. Resolving the level of ordinary skill in the pertinent art.
 4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
5. Claims 1 and 8 rejected under 35 U.S.C. 103(a) as being obvious over Ankhiwala et al. (caplus an 1991:81666).

Determination of the scope and contents of prior art.

The reference teaches the following compound as an antimicrobial agent

Ascertaining the differences between prior art and instant claims.

The prior art compound is a positional isomer of the non-elected species shown above, Section 4.

Resolving the level of ordinary skill in the pertinent art – Prima Facie Case of Obviousness.

Position isomers are generally of sufficiently close structural similarity that there is a presumed expectation that such compound possess similar properties. MPEP §2144.09.

One of ordinary skill would be motivated to make the modification required to arrive at the instant invention with reasonable expectation of obtaining an additional compound for the same utility.

Thus, the instantly elected species is *prima facie* obvious over the prior art.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after

Art Unit: 1626

the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
